*Electrical Engineering Seminar*

1928

Faculty Of Electrical Engineering  
K. N. Toosi University of Technology

**Study of the relationship between physiological parameters  
of the human organism and  
its dielectric properties in the microwave and millimeter range**

**Creation of mechanical nano-tools based on shape memory alloys and  
their application in the new technology of  
mechanical nano-assembly "bottom-up" in order to  
create individual nano-devices from single nano-objects**

Date: May. 06, 2023  
(16 Ordibesht 1402)  
Time: 13:30- 15:00

**Dr. S. Gratowski**  
The Institute of Radio  
Engineering and Electronics  
Russian Academy of Science,  
Russia

**Dr. V. Koledov**  
The Institute of Radio  
Engineering and Electronics  
Russian Academy of Science,  
Russia
